COMPLIANCE

CAPABILITIES STATEMENT

WILSON ENVIRONMENTAL COMPLIANCE

Wilson Environmental Compliance is the most trusted environmental consultant on the Gold Coast. We work with Builders, Contractors and Developers to achieve environmental outcomes within project time and cost parameters. We manage environmental risk, evaluate environmental performance, and identify cost savings.

We are committed to achieving the most practical outcome during the delivery of your project. Whether it be land clearing, erosion & sediment control, dewatering, managing acid sulfate soils and contaminated land. We insure no impact on surrounding neighbours or receiving environments.

**Relax, we keep
the Regulators
away.**

OUR CORE SERVICES

- Independent Environmental Monitoring
- Dewatering Management Plans
- Environmental Management Plan
- Erosion and Sediment Control Plan
- Environmental Compliance Audits
- Groundwater sampling
- Acid Sulfate Soil investigation and management
- Water and Soil Quality Monitoring
- Contaminated Land Investigation
- Environmental legislation
- Working with Governments on behalf of our clients
- Council approvals

"I have had the pleasure to work with Wilson Environmental Compliance on Hutchinson Builders site The Verge. Each week Wilson Compliance attend site and provide valuable insight into dewatering water quality compliance and continually provides clear professional environmental advice. Ros and the team are great to deal with."

- **Rick Rowntree Site Manager**

ABOUT US

The company was founded in 2018 to fulfill a demand for environmental awareness across all stages of development and construction. An integral component of our business is to incorporate knowledge of environmental legislation to promote best practice environmental compliance, environmental responsibility and environmental management across all phases of construction.

Our ability to adapt with the changes in legislation and regulations permits us to properly advise and assist in facilitating environmental compliance.

Wilson Environmental Compliance has grown into a sustainable and reputable company servicing multiple clients in Civil, Building Construction and Development.

Wilson Environmental Compliance has a growing team, and we work collaboratively with experienced, highly skilled professionals combining industry leading expertise and specialist capabilities to deliver required environmental and construction outcomes.

WHAT WE DO

We ensure environmental compliance across all legislation. We are versed in Local, State and Federal Environmental and Planning Compliance. We have experience in the construction industry, and **we know you want to get the job done within time frames and cost parameters.**

**Relax, we keep
the Regulators
away.**

ABOUT THE OWNER

Rosalyn Wilson Director and Principal Environmental Scientist

Rosalyn is the Director and Principal Environmental Scientist. She started her career in construction as a Building Inspector working in Local Government. She adds a decade of experience both in Government, private and nonprofit sector organisations. Rosalyn has been lead investigator for numerous pollution incidences originating from construction sites and has attended Local Court and Land and Environment Court as an expert witness. Rosalyn offers leadership and practical experience to the construction industry to ensure environmental compliance.

ENVIRONMENTAL COMPLIANCE AUDIT

Book an Environmental Compliance Audit and reap the benefits:

- Showcase the project as being environmentally compliant
- Achieve compliance with DA Council conditions
- Advise practical measures to ensure environmental compliance
- Assist with award nomination application
- Keep contractors accountable
- Advise risk management
- Keep the regulators away
- Achieve ESG compliance

Relax, we keep
the Regulators
away.

"Thanks for the environmental compliance audit. Good to know we are doing above best practice."

- **Matt Thompson**
Construction Manager
